While the lynching of the negro at Lebanon last week is deeply regretted by many good people all over the state, the act itself is no surprise to many. When the Bowers bill, making it unlawful to hang criminals in this state, became a law, it was freely predicted by many that crime among the negroes and low class of white people would increase so soon as the existence of the law became generally known.

General Faulkner, attorney-general for the district in which Wilson county and Lebanon is situated, has said emphatically that, in his opinion, the Bowers law was the cause of the lynching. To confirm that he cites the fact that the people of Wilson county quietly awaited the action of the courts in a case of rape of a white woman by a negro a few years ago. The woman was the mother of a babe only six weeks old.

General Faulkner urged that Gov. Rye include the repeal of the Bowers bill in his special legislative call, but it was not done. Later actions are very liable to show more fully what a decided failure the Bowers bill is.

No law-abiding citizen can condone or defend the act of the enraged citizens of Lebanon, but many persons will be inclined to blame the Bowers law more than the mob.

President Wilson has instructed the American army to get Villa, the Mexican bandit who led the forces against Columbus, New Mexico, last week and killed about twenty Americans, dead or alive at any cost.

The spirit manifested by President Wilson is right and will be upheld by every true American. There is a better, easier and less expensive way and one that would be liable to produce international differences: That is to put such a price on the head of Villa as would lead his own people to kill him and deliver his body to the American army. It would not cost over twenty-five thousand dollars, would save several American lives and the actual expense would be much less than to go after him with American troops.

The case is in no sense one of an insult having been offered to this government by Mexico for General Carranza has declared Villa an outlaw and authorized any person to kill him. Because it is not a case of one nation insulting another, nothing would be lost by purchasing the life of that murderer. There is always a chance for strained relations to arise between this government and Mexico when our troops cross the border. It might result in war and that would result in the loss of many thousand American lives and a large cash outlay.

Purchase the life of the villain and let his followers kill him, which they certainly would do for a comparatively small sum, for it is well known that his men fear him, but do not love him.

It is all right for President Wilson to grant the same rights to Mexican troops that we claim, but be that as it may, the fact should become unyieldingly fixed in every American mind that Villa must die at whatever cost.

If the Mexicans pretend to defend him, let's go in and clean up the entire nation. Forbearance has ceased to longer be a virtue and it is time that Mexico was shown beyond any kind of doubt that such outrages as have been perpetrated on our people must cease and not be indulged in any more under any pretext.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health.

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

In the Indiana state primary election last week former Vice President Fairbanks received nearly 18,000 more votes for the nomination for president on the republican ticket than did President Woodrow Wilson for nomination on the democratic ticket for president.

Indiana is normally a democratic state by twenty to thirty thousand votes. The election result last week would indicate that Indiana will be in the republican column this fall.

RHEUMATIC PAIN STOPPED.

The drawing of muscles, the soreness, stiffness, and agonizing pain of rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spot. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada., Pa. Sloan's Liniment kills pain. 52c at druggists. 3.

DON'T DO IT.

To those of this section who have been in the habit of buying frost proof cabbage plants each year we would say, be careful who you buy from. There is a concern that styles itself Atlantic Coast Plant Company, with headquarters at Youngs Island, S. C., and which also claims Clements, S. C., as an address point.

They have been owing the Chronicle Publishing Company a little bill of less than ten dollars for nearly a year. We sent them repeated bills and never could get even so much as a word in reply until we put a stinger in our request. Then they came back frothing at the mouth and said: "We intend to pay your account when we get to it." Nearly a year does not seem to be time enough for them to "get to it."

Any firm that will beat so small a bill as that is not worthy the confidence of any person. It would be well for our people to be slow about trusting that company with their money before seeing the goods for they may decide to send the plants "when they get to it." Be safe and send your money to some other firm.

Cut Your Store Bill Down One Half

Tens of thousands of farmers as well as town and city folks cut down their store bills one-half last year and saved money in spite of generally short crops and reduced wages.

Absolutely millions of dollars were saved and countless families lived better than ever before in the face of the cotton crisis and general business depression.

How were these burdensome store bills cut down? By the real money-saving power of good home gardens, rightly planted and kept planted and tended through the season.

Hastings 1916 Seed Catalogue tells how to cut store bills down; tells about garden and farm seeds of kinds and a quality that cannot be bought from your merchant or druggist. It's full of garden and farm information. It's free if you ask for it. Write for it now. H. G. HASTINGS CO., Atlanta, Ga.—(Advt.)
